A BAFTA award winning Director with a proven track record of delivering visually compelling work and strong narratives for the biggest broadcasters and global brands. My philosophy is one of a calm approach, a strong eye for cinematic detail and the importance of story in which I have effectively applied to Entertainment, Fact ent, Reality, Comedy, Music programming and Branded content. I have over 14 years experience of directing large scale multi-cam shoots and single camera promo shoots with a strong ability to adapt to a variety of onscreen talent. My creative passion enables me to successfully craft the look + feel for new programming, in addition to adapting established formats.
